## ROCKYFORD

A severe hail storm hit the Rockyford district a week ago Saturday causing a considerable amount of crop loss. The hail adjusters are busy this week making adjustments.

A wedding took place at St. Rita's Church on Monday last, when Miss Anna Mary Cleary, daughter of Mr. and Mrs. Cleary, Rosebud, and Mr. Gerald R. Stone, manager of the Bank of Montreal, at Payton, Sask., were united in marriage. The Rev. Father Bolts officiated, and said the Nuptial Mass. Witnesses were Richard K. Hungerford, of New York City, and Joseph P. Cleary, Rosebud. Mr. and Mrs. Stone will make their home in Payton, Sask.

On Wednesday night of last week a number of the members of St. Rita's parish gave a surprise party at the Rectory, honoring the Rev. Father Bolts, who left Thursday night for a stay of several months in New York City. The evening was spent with music and entertainment, and very nice refreshments were served. Father Bolts was the recipient of a purse presented to him by the parishioners on a parting gift.

Rev. Father Bolts left Thursday night on the Trans-Canada Express for New York City, where he expects to take a two months course in the St. Ignace Seminary, in Montreal, which he will spend three months at the Paulist House of Studies at the Catholic University, Washington D.C. Father Bolts expects to return to Rockyford some time in December.

## Here and There

The estimated gross agricultural wealth of Canada is \$7,508,237,000 according to the Department of Interior.

Concluding a stay in Canada on their ranch near Kamloops, B. C., the Marquess and Marchioness of Exeter accompanied by Lady Winifred Cecil, sailed from Quebec recently on the Canadian Pacific steamship Minnedosa for England.

An aeroplane passenger and freight service to the central Manitoba mine area was inaugurated on June 1 by the Western Canada Airways Limited, making the first commercial service to be operated in the Province.

Foundation work is proceeding rapidly on the new addition to the C. P. R. grain elevators at Port McNicoll, which when completed, will have a storage capacity of 6,000,000 bushels, instead of the present capacity of 1,000,000 bushels.

A total of 1,834 English boys have already been moved from the Old Country and based on farms in the United States and Canada by the Canadian Immigration and Colonization Association according to the figures given out at the annual meeting of that organization.

According to figures of the Canadian Government, Canada led all countries of the world by a wide margin as an exporter of wheat, wheat flour and other grain products, in 1926. In that period Canada shipped 187,705,000 bushels, her closest rival being the United States with 94,191,000 bushels.

Days of the covered wagon were recalled recently. Mr. and Mrs. W. Barker and six children arrived at Banff, Saskatchewan from Marshall, North Dakota, in an outfit consisting of a covered wagon, 10 head of horses and four wagons carrying their household effects and farm implements. They leased a half section of land.

General individual travel through the Canadian West is expected to be very heavy this year according to G. McNeill, general passenger agent of the Canadian Pacific Railway at Winnipeg. Several important parties will also add to the number of travellers associating through the Canadian Hotel and Resorts.

The life of John Pope, sailor aboard the American vessel *Natraz* was saved recently by instructions received by Surgeon Taylor of the Canadian Pacific steamship *Minnedosa*, after Pope had been critically injured by a fall of sixty feet from the mast. The two ships were 100 miles apart but the *Natraz* and the injured man was transferred to the C. P. R. ship and rushed to Quebec.

### HEARD ON THE STREET

John C. Davis of Ardenode says that some of his friends, tell him there ain't no use to try to farm when so much juice keeps dripping from the clouds each day; this kind of weather is about the best they can get. The rain has mixed the air currents all up so that winter's spring and spring is fall, and we won't have no peace at all until those stations all have quit. They talked quite a bit about the need for some new law to shut them stations up, but pshaw! the weather man be shouldn't go and get mixed up by radio.

I don't believe, remarks John, in no such rot, because the other night I got a speech as dry as dry could be, and yet it rained all night, by gee. Of course when them somnoses sing the clouds just weep with pain, by jins, but most the time with just and some they broadcast sunshine all day long. It ain't the radio. I think I will go get the some hail insurance, and then let her rip.

A Strathmore man stopped a Standard and registered, and asked him to put item in the paper about his wife being away on a visit. I don't want folks to think there is trouble at home just because I'm eating at Bill Wilkin's restaurant," he said.

"What is the defendant's reputation for veracity?" asked the magistrate. "Excellent, your honor," said the witness. "I've known him to admit that he had been fishing all day and hadn't got a single bite."

King Kelly: "Why are you so sure that there is no communication between the dead and the living?" Bill Tierney: "Well, I borrowed five dollars from a Scotchman a week before he died, and I haven't heard anything from him yet about it."

"What did you draw, just now, little Emmeline?" "I started in drawing your picture, grandpa, but it didn't look like you, so I put a tail on it and called it a dog."

The Judge: "The jury having acquitted you of the charge of blemish, you are discharged. That means you are quite free to leave the court and so home."

The Prisoner: "Thank you, my lord, but I want to be on the side also— which home?"

"What is your favorite chapter in the Bible, Uncle Ajax?" an old dorky was asked.

Uncle Ajax scratched his lips. "Das one what 'ell about de 12 opposomus, sir," he replied.

It was twilight at the Calgary stampede. The bell boy called a taxi. Then he escorted four slightly inebriated males from the foyer.

"This city (tossing him in the car corner) goes to Siltion boulevard. This one (putting him in the rear corner) goes to Hillhurst. This one (putting him in the middle) goes to East Calgary, and this one (putting him on the jumper seat) goes to Parkview.

The taxi driver nodded and gave him the gas. In about five minutes he was back.

"Say! Would you rearrange those guys? I went over a bump and they all got mixed up."

Mrs. Blank was discussing the latest fashions with a young lady caller. "Did you say that your husband was fond of those clinging gowns, Maude?" "Yes, he likes one to cling to me for about three years."

"My dear," reflected her husband, "sometimes you're just like an angel." "Oh, dear, do you really think so?" "Well, it's this way. In the first place, you are always thriving about; secondly, you are always harping on things; and third, by your own account, you have nothing to wear!"

"Jack" Mackenzie must be living high at Redhead, Scotland, judging from the oblique view in the London Express. It is but a short time ago when he was a humble Canadian publisher, and might be well pleased to see a good ration of beer and bacon.

"Wild birds' eggs have been plentiful this year. Shopkeepers come keepers and farmers procure many a useful basket of them while pursuing their calling on hill and shoreland. The curlew's, squab's, and the dove's eggs provide a tasty meal. A connoisseur tells us that these eggs should be boiled hard and allowed to cool before being eaten, or they are palatable when fried. Don't sample a curlew's or a squab's egg after three minutes boiling or you may never sample one here—they are strong, very strong."

Marie: "How did you succeed with that aviator?"  
Mamie: "I made a perfect landing."

During the recent stampede in Calgary, a motor policeman stopped Jim Moran. He was met by the inquiry, "What are you stopping me for? I wasn't speeding."

"I know it," was the reply.  
"And I am not drunk, having not even been drinking."

"I know that, too, but you haven't your diaphragm on."

"That's funny; I certainly put on everything that was laid out for me for this trip. I guess 'Mike' must have got my diaphragm."

Bobby: "Do you remember the first boy that kissed you?"

Alice: "Look here, I want a decent evening's entertainment, not a course in Ancient History."

Fred Dunn, Insurance Adjuster: "You say your father was injured in an explosion. How did it happen?"

Child: "Well, mother said it was too much yeast, but father said it was too much sugar."

Constable Tate to Prisoner: "When were you born?" (No reply) "Did you hear what I asked? When is your birthday?"

Prisoner (nuttily): "Wot do you care? You ain't got to give me nothing."

THE CREDIT MAN'S LAMENT  
(Sung Last Night on the Back Porch Chorus.)

It's "charge it" in the morning.  
And "charge it" at night.

It's "charge it" most all the time.  
It certainly is a fright.

And when we ask a payment,  
On a bill that's long past due,  
We hear that old story:

"Well pay in a week or two."

Lady: "Gene, I haven't seen you smiling at that creature who just passed."

Gene: "I hope you didn't see dear."

IRISH VICE-PRESIDENT ASSASSINATED

Kevin O'Higgins, Vice-President of the Irish Free State and Minister of Justice and External Affairs, who was assassinated by three unknown men who shot him eight times as he was going to church on Sunday, O'Higgins, who was the most respected and hated man in Ireland, was without his armed escort for the first time in many months. His father was assassinated in 1923.

### ADMINISTERING AN ESTATE IS A BUSINESS IN ITSELF

When you are debating with yourself whether to name an individual or a Trust Company, as Executor of your will and trustee of your estate, bear in mind this vital distinction.

With most individuals executorship is a side issue, for which they have no special preparation. Administering wills and managing estates is the business of a Trust Company for which it has been organized and is especially equipped.

### C. P. R. CROP REPORT

WINNIPEG.—With further rainfall in all districts of the west, and moderate high temperatures, grain is coming along well, says the weekly report of the department of agriculture of the Canadian Pacific Railway. There is enough moisture now to carry the crops until the filling stage is reached, provided no extreme heat and high winds are experienced for a long period. Hail did some damage in parts of central Saskatchewan and Western Alberta. Weeds are plentiful in some fields, but crops generally are in excellent condition, and more promising than for some years past. Summer plowing has gone ahead rapidly, except in low spots where further rains during the week have impeded progress. Hay crop will be a record, and the same applies to sweet clover and lucerne. Later crops are being cut in many districts with promises in splendid condition, and every assurance of good winter feed supply.

Alberta has fine crops, and with reasonable weather, the amount of new breaking which is being done is considerably more than usual. The land being in excellent condition for this work. Hay crop is the best in years, and pastures which have never before had better, are affording ample sustenance to all livestock. Hail damage occurred on the seventh on Red River subdivision, between Ode and Hinton, covering a strip of two miles wide and ten miles long. Estimates place the damage at six thousand acres, or an average of 25 per cent. Slight loss was also suffered on the Sunfield subdivision. At Langdon, on the Brooks subdivision 75 per cent damage to the crops on an area three miles wide and six long. It is thought, however, that under moisture conditions, much of this crop will recover.

TOWNS ADOPTING  
FIFTY FIFTY PLAN  
ON TRUNK HIGHWAYS

Although government officials will  
not at the present time announce the  
names of all places lining up behind  
the scheme it is stated to the ex-  
clusion of the Alberta Motor Associa-  
tion, that a large number of towns in  
the province have signalled to the gov-  
ernment their intention to join in a  
joint sharing of the cost of construc-  
tion main trunk highways through  
their municipal limits. Particularly is  
this true along the route of the main high-  
way from Edmonton to the Montana  
border via Calgary, Medicine Hat and  
Cardston, which will be hard acrossed for  
several part of the distance by  
September this year. Advocates per-  
cent of the towns along this highway  
have expressed their willingness to  
accept the government's offer. When  
actual construction will commence on  
these many unfinished sections of the  
highway has not yet been decided upon.

The stand of the Alberta Automobile  
Association on this question is to  
oppose last May, is expressed in the  
following resolution:

"WHEREAS the cities, towns and  
villages pay at least as large a propor-  
tion of the taxes upon the road build-  
ing as those paid by rural municipalities  
AND WHEREAS under existing  
conditions where the highway joins the  
streets of the cities, towns and villages  
the Province, in no cases infer-  
ior roads will be found;

"BE IT RESOLVED that in the  
regions of the Alberta Motor Associa-  
tion in several meetings assembled, the  
Alberta Government should either  
build the main highways through the  
lawns, cities and villages, or at  
least contribute to the building of the  
main highways where they run over
